«LA-SC-06» Review Early Design Justification Logical Activity

doc

Realizes F-06. The reviewer retains outcome authority. Selected reproduction invokes the common controlled-reproduction capability through the review and analysis-execution boundaries. Incomplete packages and unresolved critical findings remain explicit.

attributes

reviewAccepted : Boolean

request : 'Design Review Request'

modelRecords : 'Controlled Model Records'

evidenceRecords : 'Retained Evidence Records'

findings : 'Review Findings'

disposition : 'Finding Disposition'

outcome : 'Review Outcome'

«action»
Receive review request through IF-01

«action»
Verify review-package transfers

«action»
Resolve review baseline and evidence

«action»
Assemble review package : 'Assemble Review Package'
