Selected evidence map: reference-model lineage and EPS-focused reports

Selected evidence map (n=19); not an all-corpus aggregate or a derivation chain.

Colors = coded EPS relevance; heavy outlines = executable/model-based checks or simulation-in-the-loop.

Power-budget/electrical architecture · EPS-adjacent · System-level only · EPS-specific

Heavy outline = executable/model-based checks or simulation-in-the-loop · Diamond = protocol-boundary report; coded EPS relevance retained

Year	Reference-model lineage	EPS-focused reports / protocol boundary
2013	RAX scenarios	
2014	Integrated simulation Enterprise model	
2015	CRM interim 1 CRM concept application	
2016	CRM interim 2 CRM distribution	
2017	CubeSat behavior CRM interim 3 CRM V&V	
2018	Technical measures CRM interim 4	
2019	CRM interim 5	
2020	CSRM application Standardized template	
2021	Mission engineering	
2022		
2023		Open-source EPS
2024		Requirements-in-loop
2025		Electrical architecture
