**<COM-PN-01> COMET Participant Client Physical Node**

*doc*

Client-side node containing the two integral COMET clients reported by Deutsch et al. (2022), page 3, plus their abstract execution host.

**<COM-PN-03> Model Analysis and Evidence Integration Runner Physical Node**

*doc*

Explicitly separates candidate additions from the reported COMET product. This isolates model-language, COMET-access, analysis-tool, repository, and assurance changes.
