Verification/validation linkage categories
Test cases, automated tests, or RTM/RMM mapping
5
No explicit model-linked V&V
6
Power/EPS resource requirement or feasibility check
6
External analysis tool coupling or automatic feedback
7
General MBSE V&V statement only
8
Requirements linked through satisfy/verify/trace relations
13
Executable simulation linked to the model
16
Parametric, constraint, budget, or resource checks
20
V&V packages, reviews, plans, or procedures
