Contribution categories
Risk or technical-measurement model
14
Reference model, template, or reusable architecture
30
EPS, power, resource-budget, or electrical-architecture representation
34
Requirements, traceability, V&V, or testing linkage
38
Simulation, trade study, executable analysis, or sizing
38
Mission or case-study application
39
System-/mission-level nanosatellite model
39
Method, framework, process, or workflow
40
Toolchain, data integration, or interoperability
